

Taking Me Away

Words by Ali Matthews Music by Ali Matthews & Rick Francis (c) 2000

I think I saw myself in your reflection
I think I left my heart in your embrace
Letting go was never my intention
Now I'm falling -falling from grace

It doesn't matter if we talk about it
We'll never have the perfect words to say
But I don't want to live one day without it
Your love is taking me away - taking me away

I can't believe the way you saw right through me
Caught up in the way you took my hand
It's funny how it seems you always knew me
Like a secret we both understand

It doesn't matter if we talk about it
We'll never have the perfect words to say
But I don't want to live one day without it
Your love is taking me away

Where your smile can heal me
Where I feel no shame
Where your eyes reveal me
Your love is taking me away

It doesn't matter if we talk about it
We'll never have the perfect words to say
But I don't want to live one day without it
Your love is taking me away
